SUMMARY

B.Tech graduate in CSE – Artificial Intelligence with hands-on experience in Python, Machine Learning, Deep Learning, and Web Development. Built AI models using TensorFlow, PyTorch, and Scikit-learn achieving 95%+ accuracy. Completed a Data Analytics internship involving ETL, data visualization, and workflow automation. Strong problem-solving, communication, and team collaboration skills. Seeking an entry-level role in Software Development or Data Analytics.

EDUCATION

B.Tech – CSE (Artificial Intelligence), G. Pullaiah College of Engineering and Technology, Kurnool 2021 – 2025
CGPA: 7.85/10
Intermediate (MPC), Sri Chaitanya Jr. College 2019 – 2021
Marks: 871/1000

SKILLS

Programming Languages	Python, JavaScript(Basics), SQL
Web Technologies	HTML, CSS, Bootstrap, Responsive Web Design
DevOps & Tools	Git, GitHub
Databases	MySQL
Soft Skills	Communication, Team Collaboration, Problem Solving, Analytical Thinking

PROJECTS

Attendance System Using Face Recognition *Python, OpenCV, TensorFlow, Flask, MySQL*

- Built an automated attendance system using face recognition, achieving over 95% accuracy on a dataset of 200+ individuals.
- Implemented real-time face detection using OpenCV and deep learning models with under 1-second inference time.
- Developed a Flask REST API web interface integrated with MySQL database for attendance tracking and reporting.

Deepfake Detection – Hybrid MobileNet-LSTM Model *Python, PyTorch, CNN, LSTM, MobileNet — Jan 2024*

- Developed a hybrid MobileNet-LSTM model using PyTorch to detect deepfake content, achieving high classification accuracy.
- Trained and evaluated model on 5,000+ real and synthetic video samples using Scikit-learn metrics to improve robustness.
- Deployed real-time scanning pipeline for social media and streaming platform integration using REST API.

INTERNSHIP

Data Analytics Automation – Virtual Internship, Alteryx Sep 2023 – Nov 2023

- Gained hands-on experience in data preparation, blending, and automation using Alteryx Designer.
- Built end-to-end data analytics workflows applying ETL processes, data visualization, and low-code automation tools.
- Performed data cleaning, transformation, and dashboard creation to generate actionable insights using analytics tools.
